

21 November 2025

Col Cory Cooper, USAF
Permanent Professor and Head
Department of Mechanical Engineering
2354 Fairchild Dr
USAF Academy CO 80840

Lt Col Jordan Firth, USSF
Department of Astronautics
2354 Fairchild Dr
USAF Academy CO 80840

Col Cooper,

Thank you for considering my application to be USAFA's next Permanent Professor and Head of the Department of Astronautics. This position lies directly at the intersection of my passions for education, space, and officer development. The officer selected for this position will be responsible for guiding the continued development of a mutually beneficial relationship between USAFA and Space Force as space becomes increasingly important to America's national security. I believe my career has uniquely prepared me for the leadership USAFA needs to meet this challenge and maintain the institution's strong heritage of world-leading space education and officer preparation.

I am deeply committed to USAFA's mandate to take America's best and brightest young adults and develop leaders of character for the Air Force and Space Force. I have seen first-hand how important this mission is for the military and the nation, and I am proud to support it. I am also passionate about building teams that can accomplish more than any individual. At USAFA this includes recruiting and developing department faculty, empowering them to lead by example and teach officership in addition to engineering.

The Air Force and Space Force have provided me with skills, education, and experience that I believe will be invaluable for USAFA and the Department of Astronautics.

- I have five years of teaching experience at USAFA, including courses in two engineering departments. In addition to classroom instruction, course direction, and curriculum development, I have also led the Astro Department's new faculty training program.
- I have two ABET-accredited engineering degrees. My doctoral research consisted of development and zero-g flight test of spacecraft components funded by a NASA grant.
- I led USAFA's ongoing ABET-accreditation work for the Department of Astronautics. I also led the Engineering Division's 2024 Engineering Program Advisory Council (EPAC), a biennial external review ensuring that our engineering programs produce officers ready to meet the technical needs of the Air Force and Space Force.

- In response to a weakness identified by EPAC reviewers, I developed an experimental multi-department course combining technical skills and domain communication. This course is on track for inclusion in USAFA's Course of Instruction as Engr 201 in Fall 2026, and will be a requirement for two engineering majors.
- I have a record of academic research, including peer-reviewed journal articles and support of cadet research leading to student conference presentations.
- I have a record of demonstrated leadership excellence.
 - I served as Acting Squadron Commander for 5 months in USAFA Cadet Group 4. I led two Cadet Squadrons while their Commanders were on extended leave. This included maintaining good order and discipline, commissioning education, and successful preparation for USAFA's inaugural CULEX. In this role I served as a bridge between CW and DF, and directly contributed to cadet success, including AFCWI development. I also worked with USAFA's A1 and Space Detachment to determine USAFA's policy for selecting graduates for commissioning into Space Force.
 - I led a team of 29 intel analysts performing acquisition intelligence at the Defense Intelligence Agency. In this role I reversed a years-long cultural decline and restored trust between military members and DIA civilians in my 150-person office, and led two of my team leads to Directorate/Agency-level FGO-of-the-year awards.
- I also supported commissioning education at NC State's AFROTC Det 595 as a PhD student. When the Detachment Commander was relieved of duty, I coordinated coverage for three instructor positions and personally taught sophomore-level AS 222: Team and Leadership Fundamentals to 27 cadets, preparing them for success at field training directly after course completion.

USAFA established the nation's first undergraduate degree in Astronautical Engineering and maintains an absolute commitment to preparing every graduate with an astronautics background. This commitment has prepared countless officers for leadership in space, even those who unexpectedly ended up in national security space—including me.

I look forward to the responsibility of guiding USAFA and the Department of Astronautics through the ongoing rapid growth of Space Force and the space domain. I believe I have the skills, experience, and passion to succeed as USAFA's next Permanent Professor of Astronautics, and I look forward to the opportunity to discuss the position with you further.

JORDAN A. FIRTH, Lt Col, USSF
Assistant Professor

Jordan Firth

Lieutenant Colonel, USSF

EDUCATION

2016–2019 PhD, Aerospace Engineering, North Carolina State University, Raleigh NC

Performed Zero-G parabolic test flights of novel deployment mechanisms for rollable spacecraft booms with funding from a NASA grant. Led a 14-member team to design, develop, and manufacture instrumentation, support equipment, and boom deployment mechanisms, including satisfying FAA airworthiness standards.

2009–2011 MS, Astronautical Engineering, USAF Institute of Technology, Wright-Patterson AFB OH

Focus on astrodynamics and spacecraft system design. Team lead for a two-semester student project building and testing a cubesat-sized academic spacecraft. Thesis research focused on spacecraft flywheel vibration.

2002–2006 BS, Engineering Mechanics, USAF Academy CO

MILITARY EDUCATION

Present Air War College, currently enrolled in distance learning

2017 Air Command and Staff College, completed via distance learning

2012 Squadron Officer School, completed in residence

ASSIGNMENTS

2022–present Assistant Professor, Department of Astronautics, USAF Academy CO

Jan–May 2025 Acting Cadet Squadron Commander, Cadet Group 4, USAF Academy CO

2019–2022 Warfare Domains Branch Chief, DIA Def Tech & Long-Range Analysis Office, Charlottesville VA

2016–2019 PhD Student, North Carolina State University, Raleigh NC

2014–2016 Assistant Professor, Department of Astronautics, USAF Academy CO

2011–2014 DSP Ops Officer, SBIRS Sys Test Engineer, Infrared Space Systems Directorate, Los Angeles CA

2009–2011 Master's Student, USAF Institute of Technology, Wright-Patterson AFB OH

2008–2009 Rocket Sled Test Engineer, 846 Test Squadron, Holloman AFB NM

2006–2008 Flight Test Engineer, 586 Flight Test Squadron, Holloman AFB NM

LEADERSHIP AND COMMISSIONING EDUCATION

2025 Jan–2025 May Acting Squadron Commander, CS-32/CS-37, Cadet Group 4, USAF Academy CO

Led 2 NCOs and 100 cadets while two commanders were on extended leave. Responsible for order and discipline. Mentored cadet squadron leadership teams. Taught commissioning education lessons. Advised group leadership and served as a bridge between CW and DF. Directly contributed to Wing policies, including AFCWI development. Led squadron to #1/40 finish in 1st ever Superintendent's Challenge.

2019–2022 Chief, Warfare Domains Branch, DIA Def Tech & Long-Range Analysis Office, Charlottesville VA
Branch chief for 29 acquisition intelligence analysts at seven locations. Assessed near-term threats to US systems. Maintained the authoritative Defense Intelligence Threat Library, which connected program staff to intelligence authors for \$1.23T worth of defense programs. As military advisor for a 150-person office, I also guided development of eleven assigned joint officers

2018 Jan–2018 May AS 222 Course Director, AFROTC Detachment 595, NC State University, Raleigh NC

Taught spring semester sophomore-level ROTC Team & Leadership Fundamentals class to 27 cadets at the Det commander's request. Prepared cadets to put leadership concepts into practice at field training.

ENGINEERING EDUCATION EXPERIENCE

2022–present Assistant Professor, Department of Astronautics, USAF Academy CO

Course Director, Astro 331 Space Systems Engineering

Directed intermediate lab-based space systems engineering course teaching fluency in system-level design issues and all major spacecraft subsystems through assembly and operation of a breadboard-based spacecraft analog. Transitioned lab curriculum to use sustainable commodity hardware.

Course Director, Astro 201 Tech. Skills for Astro/Engr 495 Tech. Skills & Domain Comm. for Engineers

Developed course introducing key skills and tools for Astro majors, and incorporated instruction in engineering communication to address an externally-identified educational shortfall in the major. Course is on track for Fall 2026 inclusion in USAFA COI as a requirement for two engineering majors.

Instructor, Astro 310 Engineering Principles of Space Warfighting

Assisted Department-wide update of curriculum to include space warfighting topics in course required for all USAFA graduates.

Director of Assessments, 2022–2024

Maintained department assessment program supporting continuous improvement and periodic ABET accreditation. Led 2024 Engineering Program Advisory Council. Performed mid-cycle ABET self-assessment. Identified and filled gaps in department assessment program.

2014–2016 Assistant Professor, Department of Astronautics, USAF Academy CO

Course Director, Astro 321: Intermediate Astrodynamics

Instructed intermediate course in orbital mechanics including orbit determination, maneuvers, perturbations, and rendezvous and proximity operations, as well as programming skills to perform these operations at scale.

Course Director, Astro 310: Introduction to Astronautical Engineering

Directed introductory astrodynamics course, including orbital mechanics, spacecraft systems, and rocket propulsion. Required for all Air Force Academy cadets. Trained incoming faculty before their first teaching semester.

Instructor, EM 320: Dynamics

Instructed introductory dynamics, covering kinematic and kinetic analysis of particles and rigid bodies, as well as an introduction to mechanical vibrations of simple systems. Required for all Aeronautical, Astronautical, and Mechanical Engineering Majors.

Engineering Division Executive Officer, 2013–2014

OTHER PROFESSIONAL EXPERIENCE

2012–2014 SBIRS System Test Engineer, Infrared Space Systems Directorate, Los Angeles CA

Oversaw system test for SBIRS missile warning system, including pre- and post-launch checkouts for three spacecraft. Testing led to successful completion of a major in-place ground system upgrade with no downtime. Compiled and edited biennial update to the Congressionally-mandated Test and Evaluation Master Plan, including coordination with external agencies for OSD approval.

2011–2012 DSP Orbital Operations Officer, Infrared Space Systems Directorate, Los Angeles CA

Oversaw execution & renegotiation of ongoing factory support contract providing manufacturer expertise for DSP missile warning operators, enabling continuous global missile warning. Contractor activities included training all incoming personnel, anomaly resolution, and spacecraft health monitoring.

2008–2009 Rocket Sled Test Engineer, 846 Test Squadron, Holloman AFB NM

Analyzed rocket sled test profiles at Holloman High Speed Test Track. Responsible for sled structural margins, acceleration profiles, and rocket staging. Coordinated with program managers, in-house shops, track operators. Revived dormant squadron capability to fire captive Stinger missiles, providing accurate threat profiles for final operational checkout of CH-47 countermeasure system before fleet-wide deployment.

2006–2008 Flight Test Engineer, 586 Flight Test Squadron, Holloman AFB NM

Performed advanced avionics flight test and test support using highly-modified T-38B and C-12J aircraft. These aircraft were used to carry test equipment and serve as targets for urgent DOD priority missions. Planned photo/safety chase for the final pre-deployment test of JASSM-ER, which verified safe missile separation and a successful 500+ mile flight. Coordinated final pre-delivery test of Iraq's first air-to-ground missile capability—Hellfire missiles launched from a Cessna Caravan.

XI. REFERRAL REPORT (Complete only if report contains referral comments or the overall standards block is marked as does not meet standards)

I am referring this OPR to you according to AFI 36-2406 (Air Force) or SpFI 36-2401 (Space Force), para 1.10. It contains comment(s)/rating(s) that make(s) the report a referral as defined in AFI 36-2406 (Air Force) or SpFI 36-2401 (Space Force), para, 1.10. Specifically,

Acknowledge receipt by signing and dating below. Your signature merely acknowledges that a referral report has been rendered; it does not imply acceptance of or agreement with the ratings or comments on the report. Once signed, you are entitled to a copy of this memo. You may submit rebuttal comments. Send your written comments to:

not later than 3 duty days (30 for non-EAD members) from your date below. If you need additional time, you may request an extension from the individuals named above. You may submit attachments (limit to 10 pages), but they must directly relate to the reason this report was referred. Pertinent attachments not maintained elsewhere will remain attached to the report for file in your personnel record. Copies of previous reports, etc. submitted as attachments will be removed from your rebuttal package prior to filing since these documents are already filed in your records. Your rebuttal comments/attachments may not contain any reflection on the character, conduct, integrity, or motives of the evaluator unless you can fully substantiate and document them. Contact the MPS, Force Management section, or the AF Contact Center if you require any assistance in preparing your reply to the referral report. It is important for you to be aware that receiving a referral report may affect your eligibility for other personnel related actions (e.g. assignments, promotions, etc.). You may consult your commander and/or MPS or Air Force Contact Center if you desire more information on this subject. If you believe this report is inaccurate, unjust, or unfairly prejudicial to your career, you may apply for a review of the report under AFI 36-2406 (Air Force) or SpFI 36-2401 (Space Force), Chapter 10, Correction of Officer and Enlisted Evaluation Reports, once the report becomes a matter of record as defined in AFI 36-2406 (Air Force) or SpFI 36-2401 (Space Force), Attachment 2.

INSTRUCTIONS

ALL: Recommendations must be based on performance and the potential based on that performance. Promotion recommendations are prohibited. Do not comment on completion of or enrollment in Developmental Education, advanced education, previous or anticipated promotion recommendations on DAF Form 709, OPR endorsement levels, family activities, marital status, race, sex, ethnic origin, age, religion or sexual orientation. Evaluators enter only the last four numbers of SSN.

RATER: Focus your evaluation in Section IV on what the officer did, how well he or she did it, and how the officer contributed to mission accomplishment. Write in concise "bullet" format. Your comments in Section IV may include recommendations for assignment. Provide a copy of the report to the ratee prior to the report becoming a matter of record and provide follow-up feedback to let the ratee know how their performance resulted in this final product.

ADDITIONAL RATER: Carefully review the rater's evaluation to ensure it is accurate, unbiased and uninflated. If you disagree, you may ask the rater to review his or her evaluation. You may not direct a change in the evaluation. If you still disagree with the rater, mark "NON-CONCUR" and explain. You may include recommendation for assignment.

REVIEWER: Carefully review the rater's and additional rater's ratings and comments. If their evaluations are accurate, unbiased and uninflated, mark "CONCUR" and sign the form. If you disagree with previous evaluators, you may ask them to review their evaluations. You may not direct them to change their appraisals. If you still disagree with the additional rater, mark "NON-CONCUR" and explain in Section VI. Do not use "NON-CONCUR" simply to provide comments on the report.

RATEE: Your signature is merely an acknowledgment of receipt of this report. It does not constitute concurrence. If you disagree with the content, you may file an evaluation appeal through the Evaluation Reports Appeals Board AFI 36-2406 (Air Force) or SpFI 36-2401 (Space Force) Chapter 10 (Correcting Officer and Enlisted Evaluation Reports), or through the Air Force Board for Correction of Military Records IAW AFI 36-2603 (Air Force Board for Correction of Military Records) and AFPAM 36-2607 (Applicants' Guide to the Air Force Board for Correction of Military Records (AFBCMR)).

PRIVACY ACT STATEMENT

AUTHORITY: Title 10 United States Code (U.S.C.) 9013, Secretary of the Air Force: AFI 36-2406 (Air Force) or SpFI 36-2401 (Space Force), and Executive Order 9397 (SSN), as amended.

PURPOSE: Used to document effectiveness/duty performance history; promotion, school and assignment selection; reduction-in-force; control roster; reenlistment; separation; research and statistical analysis.

ROUTINE USES: May specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3).

DISCLOSURE: Voluntary. Not providing SSN may cause form to not be processed or to positively identify the person being evaluated.
